AUTOGLOSS

TYRE AND RUBBER DRESSING

- **Durable - leaves a lasting finish**
- **High gloss - self-levelling system**
- **Silicone free - bodyshop safe**

A tyre and rubber dressing that brings tyres and textured bumpers back to a new look finish with a high gloss.

USES

AUTOGLOSS is a white, viscous liquid which is virtually odourless. The product is solvent-free, silicone-free and neutral.

AUTOGLOSS has a self-levelling formulation which evens out areas of uneven application as it dries.

Concentrated formulation designed for maximum economy in use.

DIRECTIONS

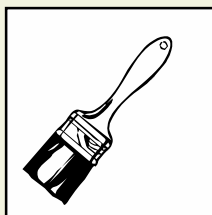

Clean the surface to be treated before application.

Use AUTOGLOSS undiluted.

Apply a thin film onto the surface using a clean brush or sponge, ensuring that you cover all the area to be treated. This will initially leave a milky finish on the surface.

AUTOGLOSS will then dry clear, leaving a high gloss finish.

N.B. Thinner coats of AUTOGLOSS will dry quicker.

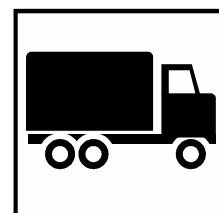

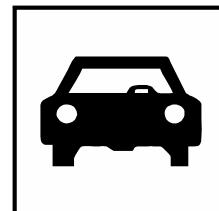

DILUTIONS

Use undiluted.
